**Association for Molecular Pathology**

Converting Your Old PowerPoint Presentation to the New AMP PowerPoint Template

1. Download the AMP PowerPoint Template to your desktop and open the PowerPoint.

2. Open a copy of your old PowerPoint and select all of the presentation slides.

3. Copy and paste the selected slides into the AMP PowerPoint Template.

4. Your original slides should automatically convert to the new format.

5. For slides that do not convert to the new format, use the "Layout" button to change the layout of the slide to match the appropriate theme/format.

6. Make any other formatting edits as you see fit.
   Note: All of the templates have been preset with the appropriate fonts and colors.
